

DY 058-3

DUKE

High-Speed Chain Stitch Sewing Machine

The DY 058-3 is a high-performance, medium-heavy three-needle chain stitch machine designed for durability and precision. Engineered with a diamond-wise needle configuration, it is the ideal solution for manufacturers requiring strong, elastic seams for a variety of textile and leather products.

Key Features

Superior Stitch Quality: Utilizes a link-typed feeding mechanism with needle bar thread take-up and looper thread catching to produce firm, elastic chain stitches.

High Efficiency: Operates at a maximum sewing speed of 3,000 r.p.m., powered by a 370W clutch motor.

Versatile Design: Features direct drive different available gauges to meet diverse manufacturing requirements.

Flexible Handling: Offers a presser foot lift of 6mm by hand or 10mm by knee for easy material positioning.

Energy saving 60% energy saving thumb to the built-in servo eco motor, which ensure efficient and silent work.

Specification parameter

Feature	Specification
Model	DY 058-3
Needle System	TV x 5 (Sizes 9"-21")
Needle/Thread Count	3 Needles / 6 Threads / 3 Loopers
Stitch Length	2-6 mm
Needle Gauge	3.2-3.2 mm
Max Sewing Speed	3,000 r.p.m.
Motor Power	370W Clutch Motor
