

Duke®

DY 180GT-01A/MY

Rotary Cylinder Computer Pattern Machine

Features

- ▶ The X-axis adopts circular arc surface feeding to realize "X" surface sewing; the stitches are more neat, beautiful and smooth, and the curvature of the brim can be adjusted by replacing the curved needle plate.
- ▶ The motor is used to drive the thread trimming, with high stability.
- ▶ Programmable large-size color touch screen, simple and fast pattern program editing

Range of application
