

Numerical control double frequency variable speed automatic cutting machine

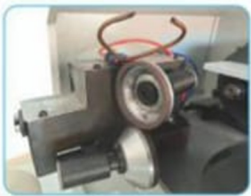

Introduction

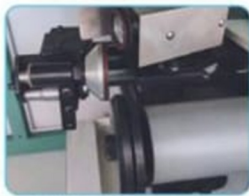

This product PLC programming, touch screen man-machine interface technology, control the X-axis, Y-axis and other reasonable mechanical devices, unique cutter surrounded by the safety cover design; safety materials accurately cut into the required size of the good quality of the bundle The Applicable to fabrics. chemical fiber, leather, paper, Park and other materials.

Key Features:

- Full range of safety hood, easy to operate chuck design and built-in vacuum cleaner, safe and environmentally friendly;
- unique automatic repair knife design;
- humanized memory of 10 different processing parameters, the same material can be cut six different sizes;
- Chinese and English visual human-computer interface easy to learn, easy to understand, easy to operate;

修刀裝置
Tool trimmer

動力修刀裝置 (選裝)
Power tool trimmer (optional)

智慧控制
Intelligent control

Technical Specifications

Specification	Details
Power Supply	220V 50Hz/60Hz
Power	5KW
Air Pressure	0.5Mpa-0.8Mpa
Maximum Working Size	250mm L2060mm
Available Knife Size	200x38.1x2.8. 350x38.1x2.8
The Narrowest Cut	3mm
Dimensions	L2910mmxW880mmxH1280mm
Machine Weight	500Kg
Gross Weight	650Kg

無鑰匙卡盤
No key chuck
