DY 430GT-06

Elastic Joining Machine

Features:

DY-430GT-06 elastic sewing machines is specially designed for elastic sewing. The maximum elastic sewing length is 40mm, and single stitch width 9mm.

The maximum sewing speed of the machine is 3200rpm being the highest in the industry, and also has quick start or stop. With the help of improved thread cutting device speed and presser foot operation, the operation cycle is shortened, resulting in quick & fast production.

Through advanced dry machine head & direct drive technology, it has an oil-free surface (needle bar, take-up lever). There by ensuring the best quality output.

Specifications:

Single-Needle

Maximum Sewing Speed: 3200rpm

Sewing Area (x-y): Maximum 40 x 30 (9)mm

Presser Lifter: Pulse motor driven

Presser foot Lifting: 17 mm

Rotating Shuttle

Thread Cutting Device

Stored Data: 89 sewing patterns, more can be added and memory expanded with CF card.

Motor: AC servo motor 550W
