

DY 882-12M

DUKE

MOCCASIN UPPER PATTERN SEAMING MACHINE (12 BUILT-IN PATTERNS)

The Duke DY882-12M is a high-efficiency decorative stitching machine specialized for sewing moccasin uppers and shoe components. Equipped with 12 pre-programmed ornamental stitch patterns, it allows footwear manufacturers to easily create precise, high-quality decorative seams on a variety of leather and synthetic materials.

Product features

- 12 Versatile Stitch Patterns: Easily switch between 12 distinct seam designs to suit diverse footwear styles.
- Precision Moccasin Seaming: Specifically engineered for upper stitching to deliver uniform, high-tension decorative seams.
- Industrial Durability: Designed to handle medium-to-heavy footwear materials like genuine leather, suede, and heavy synthetics without compromising stitch accuracy.
- Streamlined Productivity: Reduces manual labor while maintaining high consistency across large production runs.

Ideal Applications

Moccasin upper decorative stitching
Men's and women's leather dress shoes & loafers
Casual footwear and boat shoes
Ornamental stitching on leather goods and accessories
