DY 928A

DUKE

Compact Hot Melt Glue Machine

Features:

- Safe, neat, uniform glue, no glue dripping
- Replaces traditional double-sided tape (avoids unnecessary release paper), folds the edge for gluing, instead of brushing glue.
- The workpiece can be evenly glued regardless of whether it is irregular or curved, flat or thin with edges.
- The width, speed and amount of gluing can be adjusted according to the thickness of the workpiece.
- Rollers with a gluing width of 4~12mm are available.
- The direction of the roller can be selected.
- Single-wheel gluing and double-wheel gluing can be selected

Specification

application	Machinery & Hardware	Glue type	Hot Melt Glue
voltage	220 V, 110 V	driven type	Electric
automatic grade	Semi-Automatic	core components	Motor
warranty	1 Year	machinery test report	Not Available
video outgoing-inspection	Provided	key selling points	High-Accuracy
packaging type	Cartons, Bags, Belt, Other	packaging material	Paper, Wood, Plastic, Metal, Other
place of origin	China	Weight (kg)	44
brand name	Duke	dimension(l*w*h)	52*40*71cm
Glue type	Hot melt glue	Model	DY 928A
Product name	Hot melt glue machine	Feeding way	Roller feeding
Tank Capacity	1 L	Speed	1200
Max gluing width	4~12mm	Motor Power	1400W
