## HW6814SERIES

### COMPUTERIZED DIRECT-DRIVE UP-DOWN FEEDING OVERLOCK MACHINE

#### SUB SERIES:

HX6814TC-03UTC3 AK  
HX6814TD-03UTC3/AK  
HX6814TD-03UTD3/AK  
HX6814TD-83BL/UTC3/AK  
HX6814TDV-03D/AK  
HX6814TD-03/KSC3/AK  
H8800F-7C-5/AK  
HX6814-03-HP-022TV

#### Ingenuity, establish a benchmark

Differential regulating lever for upper feed dog is designed. It can conveniently adjust front and back materials volume of feed dog. Meanwhile up-down adjustable screw can easily adjust feed dog specially during changing materials.

#### Innovative design, quality improved

Computerized direct-drive high-speed top and bottom feed overlock machine is particularly designed for medium-heavy, heavy materials and easily split fabrics. It can be used for thermal underwear, swimwear and multi-layers slippery materials.

#### Human-oriented design, enhancing usability

Particularly designed slightly adjustable screw guarantees perfect stitch and sewing performance.

#### HIKARI brand, trusted by users

It combines up-down feeding mechanism, meanwhile equipped with direct-drive servo motor. Speed of starting is quicker and 70% electricity is saved compared with traditional clutch motor.
