

## JT-6105-BQ

自动文胸背扣机

Automatic bar hooks attaching sewing machine

采用步进电机送料,精度可达到0.05mm;系统可选择自动或手动操作模式,采用彩色带输入功能触摸屏;有电脑自动纠正功能,可保证背扣两侧大小一致。

快速打版,背扣花样参数化设计,只需要简单的输入相关背扣的参数,(如长度、宽度、针距等等)便可以自动生成花样,告别传统复杂的花样打板,减少学习成本。

Adopt stepping motor to feed fabric, the accuracy can reach 0.05mm. The control system have both automatic mode and manual operation mode, LED panel with input function; the control system have automatic correction function to ensure the bra hook keep at the correct position.

Can design the pattern quickly by setting the parameters, the operator just need to input the parameter of the bra hooks, such as length, width, stitch distance, etc., the machine will create the pattern automatically. Not need traditional complex method of pattern design, saving the cost of learning.

型号	Model number	JT-6105-BQ
搭载机头	Machine Head	2210电子花样机 Electronic Pattern Machine
线迹	Stitches	单针平缝 Single needle lockstitch
缝制区域	(Max.mm) Sewing area (X×Y)	220mm×100mm
送布装置	Feeding device	间隙送步 (脉冲马达驱动) Intermittent feeding (pulse motor drive)
针距	Stitches distance	0.05-12.7mm
最高缝纫速度	Max. sewing speed	2700rpm
马达	Motor	AC伺服马达750W AC-servo motor 750W
压框	Work Clamp	两段式,气动驱动 2-stage,pneumatically actuated
背扣宽度大小	Back button width	20mm-90mm
最大送料行程	Maximum feeding stroke	120mm
光纤纠偏功能	Fiber Correction Function	关闭/开启 OFF/ON
送料速度设置	Feed speed setting	0-150mm/s
