

JT-628

全自动四合扣送料钉扣机
Automatic Snap Button
Attaching Machine

1. 高效: 正常铆合频率每分钟40-60次。
2. 安全: 冲头安全保护装置。
3. 降损耗: 均匀的气压铆合, 排除了人力用力不匀引起的铆合不合格, 使产品合格率达99.9%。
4. 节能环保: 气动式工作原理低碳环保, 待机超时自动断电设置, 时刻节省能源。
5. 方便: PLC界面简单易学, 扣件互换操作快捷, 上下扣模更换方便。
6. 扣件适用范围广: 适用于9-24各种圆形金属铆合纽扣。
7. 计数功能: 可以进行产量统计。
8. 红外线定位: 对铆合部位能精确瞄准定位。
9. 适用行业: 服装、箱包、手袋、皮具、皮带、鞋类、工艺品等。

1. High efficiency: the normal riveting frequency is 40-60 times per minute.
2. Safety: Safety protection device of punch.
3. Loss reduction: Uniform air pressure riveting eliminates the unqualified riveting caused by uneven manpower force, so that the qualified rate of products reaches 99.9%.
4. Energy saving & environmental: Pneumatic work method, low-carbon & environment friendly. Automatic power-off if the standby time-out. More energy saving.
5. Convenience: The PLC interface is simple and easy to learn, fastener mold exchange is faster, and the upper & lower clamping molds is convenient to replace.
6. Wide range of application: Suitable for 9-24 various round metal riveting buttons.
7. Counting function: Count and record the quantity of productions.
8. Infrared positioning function: Confirm the riveted position accurately in advance.
9. Applicable industries: clothing, luggage, handbags, leather goods, belts, footwear, handicrafts, etc.

型号	Model number	JT-628
电压	Voltage	220V
赫兹	Hertz	50/60
总功率	Total power	200W
工作气压	Working air pressure	0.4-0.5Mpa
工作速度	Speed of work	3600个/小时 pcs/hour
加工厚度	Fabric thickness	3-6mm
外箱尺寸	Carton size	820×570×1440mm
净重(约)	Net weight (approx.)	149kg
