## LA 998

## Automatic Button Feeder (Motor)

### Introduction

1. Electric control system: Adopting the PLC integrated system developed by the company, it has fast processor speed, low failure rate, and very convenient maintenance.
2. One-click width and thickness measurement function: If different size of buttons, just press one button and put one buttons into the thickness measurement plate, adjusting the width blocker and thickness automatically.
3. Motor button feeding: Adopting high-precision stepper motor button feeding method, the feeding position is extremely precise, accurate, fast, and soft, the noise is low, and the service life is long.
4. Double functional: Two different size of buttons settled in one programe, size change automatically, no need manual insert, easy operation, improvement of production efficiency.
5. Function Function for two-hole button.
6. Support second time thread trimming function.
7. Anti-collision system: Operator foot on the pedal long times continue feeding button, mechanical system no collisions.
8. One key to open the "big button" function: When sewing big buttons (button diameter 220mm), only need to open "big button ON" on the screen, and the system parameters will be adjusted automatically.

Motor	Rated Button Sewing Speed	Continuous Button Feeding Speed	Button Feeding Stability	Button Diameter	Voltage	Rated Power	Suggested Air Pressure	Package	Weight
LA 988	40-50	60-65	99.7%	9-28	220	80	0.3-0.35	620x540x510	45
