

LOIVA®

LA 600D-35ZD

Fully Automatic Hemming Folding Machine

Specification:

1. Automatic size identification, assorting and controlling; Automatic start-stop, trim thread, align overlapping stitches.
2. Adding seam position detection device locates the position of start & end stitching and avoid false detection for fabric colour as well.
3. The seam control mechanism can realize the both side into the real same seam direction.
4. Correcting devices ensure the same seam directions are well aligned outside and inside.
5. Automatic adjust the hem edge size range.
6. IoT can be realized.

Voltage	220V
Power	1100W
Air Pressure	6KG
Gas Consumption	230L/min
Size Range	135*100*151cm
Measurement(N.S.)	Stretchable diameter range available 38-82cm, Hem Width 1.3-3.5cm
Production Capacity(per hour)	200-250pcs

Applicable station
