

LOIVA

LA 970

Automatic Button Feeder (Pen Cylinder)

Introduction

1. Hd touch panel, PLC system, more stable of the software, more intuitive of the page.
2. One-click width and thickness measurement function: If different size of buttons, just press one button and put one buttons into the thickness measurement plate, adjusting the width blocker and thickness automatically.
3. We adopt rotary cylinder feeding system, feeding buttons hundred percent of accurately and correctly. Feeding way softly, no noise, long life using.
4. Support second time thread trimming function.
5. One key to open the "big button" function: When sewing big buttons (button diameter $\geq 20\text{mm}$), only need to open "big button ON" on the screen, and the system parameters will be adjusted automatically.
6. Anti-collision system: Operator foot on the pedal long times continue feeding button, mechanical system no collisions.

Variety models supporting

This feeder can match all kinds brands of brother Loiva type button sewing machine, also can match existing machine which the factory already using, save the cost and no need to buy one more new button sewing machine.
